

Curriculum Vita

Adam S. Kibbe, Principal

Adam has designed over two thousand lighting projects since entering the profession in 1987 at **Ripman Lighting Consultants** and then founding **Collaborative Lighting** in 2004. These range from private residences to historic landmarks, parks, retail & museums, and include large commercial projects such as Logan Airport Terminal B, the Harvard Business School Innovation Lab, Grousbeck Center for Students & Technology at Perkins, J. Michael Ruane Justice Center, and the Fall River Justice Center.

Adam has also worked in residential & retail construction, and as a cabinetmaker. He served for 9 years as the Technical Director of the renowned Hasty Pudding Theatricals and from 1986 - 2002 was one of two Co-Technical Directors of the historical Agassiz Theatre at Harvard and Radcliffe, where he supervised the facility and technical activities, providing support, design & instruction for student and professional productions.

Adam's decades of theatre experience bring a particular sensibility to both the subtle and the dramatic emotive capacities of lighting, while his years in the construction trade give him firsthand knowledge of building construction methods and their impact on lighting. He continues to create original works in wood & photography.

EDUCATION **HARVARD COLLEGE** Bachelor of Arts in Biology, 1982

MEMBERSHIPS **ILLUMINATING ENGINEERING SOCIETY** Assoc. Member, 1987 - present
DESIGNERS LIGHTING FORUM OF NEW ENGLAND (ex-President, Treasurer)
